Crack the

Adobe Interview

Overview

For an Adobe interview, make sure to review your CS fundamentals. You should also prepare for behavioral questions, which will be asked in the Director or HR round.

Arrays and Strings

Arrays and String are simple and widely used, they've become a frequently asked question in the interview.

Linked Lists

These are some popular Linked List questions asked by Adobe. Add them to your list.

Trees and Graphs

Trees problems are standard programming questions. Adobe does not ask a lot of questions in this category.

Heaps, Queues, Stacks

Make sure you are very clear about the basic knowledge of Heaps, Stacks, and Queues.

Sorting and Searching

The Sorting and Searching algorithms are not negligible, and you should be prepared for them.

Dynamic Programming

If you are preparing for the Adobe coding interview, going through the Dynamic Programming is a must.

Design

As for design questions, usually, you are given some situation and need to design a system.

Others

Questions under this category are mostly related to bit manipulations or mathematical problems.

SQL

If you are applying for a Data Scientist or other related position at Adobe, you should be prepared for SQL questions.
