Get Well Prepared for

Facebook

Overview

"Interviewing for a technical job is hard, and so is being the interviewer. You want to get that engineering job at Facebook, and we want to hire the best people (you!). Knowing what to expect on both sides can go a long way toward making the process work better."

Arrays and Strings

Move Zeros is a popular one for phone interviews. Note that you may be asked to implement this.

Linked Lists

These are some popular Linked List questions being asked by Facebook.

Trees and Graphs

Facebook loves Tree types of problems. One of the Tree questions Facebook asks is...

Recursion

Definitely know how to generate permutations and combinations (such as...

Sorting and Searching

Interval related problems are quite often asked at Facebook interviews, such as...

Dynamic Programming

Decode Ways is a popular one being asked by Facebook. It is actually a simple...

Design

Read N Characters Given Read4 and its follow up (part II) are quite often asked at...

Others

Here are some other Facebook interview questions for you to practice. Interview...

Introduction

"Interviewing for a technical job is hard, and so is being the interviewer. You want to get that engineering job at Facebook, and we want to hire the best people (you!). Knowing what to expect on both sides can go a long way toward making the process work better."

- Carlos Bueno, an engineer in Facebook

Getting well prepared for an interview is important. However, preparing all questions asked is time consuming and stressful. The key points are practice and effective preparation.

We compiled this list thoroughly so you can save time and get well-prepared for a Facebook interview.

Arrays and Strings
